Flood Plain. Area Plan Director Jeremy Weir was in office to discuss the new Area Plan Flood Plain. He explained the Flood Program and federal funding; the county has to participate for flood insurance purposes. The DNR did a study on flood heights compared to topography. This was originally done in 1983 for Vigo County and is to be updated every 10 years. The study did add a few properties and removed some based on knowledge they have now. Commissioner Mason questioned if Thompson Ditch was taken into consideration. Jeremy stated it did. He also stated that those who had been added should have received a letter from DNR. There are some new requirements for development in certain areas.
